

New Art Center in Newton

Main Gallery Floor Plan

1/8" = 1'-0"

Available Movable Walls:

We have 20 movable wall panels that are each four feet wide by 10 feet tall. They can be attached in a number of ways. Any panels that are not attached to a permanent wall along the perimeter must be a part of a corner unit. In other words, free standing walls cannot be straight lines.

Our wall system is quite flexible and can accommodate many needs, so please contact us for more information at:
info@newartcenter.org

Please note: It may be necessary to partition off an area of the gallery with an area of approximately 200 sq. ft. for use as a classroom and or storage.
