

# 2024 Creative Process Portfolio Review Day

We invite you to register to receive great feedback about your artwork by professional working artists. All participants will submit their preferred time, mediums in their body of work, and goals for the review to be paired with a reviewer.

In each 30 minute session reviewers will ask participants about what they are currently working on, their history with their own art, and what their goals are for their artist practice and work moving forward.

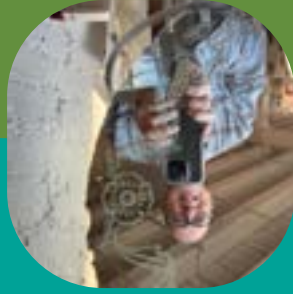

Reviewers discuss directly with you to discuss work brought in, and your ideas moving forward.

This is open to all New Art Center students and members, and our local community! Whether you want to hear your work reviewed by one of your favorite New Art instructors, have a large body of work you would like feedback on, or are feeling like you are experiencing a creative block, our esteemed review panel will work with you and your needs.

The New Art Center is a community art education space which offers everyone, at all levels of ability, exceptional opportunities to make, exhibit, view, think about and talk about art.

Today, we envision the New Art Center as a highly visible, bold, anti-racist, inclusive leader in art education and community building that serves the greater Boston community with programs and opportunities both in our facility and beyond our walls. New Art believes that the practice of looking at, thinking about, and making art helps human beings solve problems, learn from their environment, build durable communities, and live meaningful lives.
